METALLURGIA

THE BRITISH JOURNAL OF METALS

Index to Vol. XVII.
November, 1937—April, 1938.

KENNEDY PRESS LIMITED
— 21, Albion Street —
GAYTHORN, MANCHESTER 1

INDEX

A	Page
Alloys at Elevated Temperatures, Mechanical Properties of Copper Tin	21-22
Atmosphere Annealing, Controlled, By E. C. J. Marsh, B.Sc., A.I.C., M.Inst.Met. and E. Mills, M.Inst. Met.	25-27
Aluminium Industry, Cartellisation in the World, By Robert J. Anderson, D.Sc.	45-47
Acid and Heat-Resisting Steels, Developments and Applications of, By Dr. W. H. Hatfield, F.R.S.	53-55
Annealing, Bright	55-56
Aluminium Castings and Forgings, Defects in, By George Mann ..	65-68
Aluminium Industry, Cartellisation in the World, Part II, By Robert J. Anderson, D.Sc.	88-90
Alloys for Corrosion Resistance, Non-Ferrous Metals and	101
Atmospheres, Gases for Controlled Alloy Steel, Large Steel Forgings in Carbon and	108
Aluminium, Its Discovery and Development	117
Applications of Magnesium Alloys, Recent Progress in the, By D. B. Winter, A.F.R. Ac.S.	119-121
Aluminium Industry Supplement	125-162
Aluminium and Its Alloys, Market Forms of, By Wm. Ashcroft ..	175-176
Artificial Resin Bearings in Rolling Mills	176
Aluminium Bronze Gravity Die-casting, By Arthur Street ..	185-186
Aluminium and Light Metal Industries, Modern Electrical Furnaces for the, By G. C. Castle ..	191-192
Aircraft, Manufacture of High Strength Light Alloy Extrusions and their use in, Part II, By R. Worsdale	193-196
Aluminium and its Alloys, The Use of Oxide Films on, By Dr. E. G. West	197-199
Airplane Construction, Riveting Method and Rivet Equipment Used in German Light Metal ..	199-200
An Oxygen Free Copper Development	207-209
Alloys, The Thermo-chemistry of ..	210
Alloys at High Temperatures, Strength of Nickel Chromium ..	218
Aluminium-Base Alloys against outside Exposure, The Protection of, By E. Armstrong	219-222
Atmospheres, Controlling Controlled	223-224
Aluminium Industry, Cartellisation in the World, Part III, By Robert J. Anderson, D.Sc.	231-233
Aluminium Industry in 1937, United States	233
B	Page
Bronzes, High Duty, By F. Hudson ..	13-16
Bright Annealing	55-56
Brasses and Bronzes Available to the Engineer—Their Properties and Applications, High Duty, By F. Hudson	61-64

Britain's Prosperity	83
Beryllium and Its Ores. Marketing	116
British Industries Fair. The.....	163-172
Bearings in Rolling Mills. Artificial Resin	176
Bronze Gravity Die-castings, Aluminium. By Arthur Street	185-186
C	
Chromium-Manganese Steels as Heat-Resisting Steels. By J. H. G. Monypenny, F.Inst.P.....	7-12
Copper Tin Alloys at Elevated Temperatures, Mechanical Properties of	21-22
Controlled Atmosphere Annealing. By E. C. J. Marsh, B.Sc., A.I.C., M.Inst.Met. and E. Mills, M.Inst. Met.	25-27
Casting-Die	29-30
Couplings for use with Geared Diesel Engines, Electro-magnetic Slip	32
Cartellisation in the World Aluminium Industry. By Robert J. Anderson, D.Sc.	45-47
Cast Iron, The Nitrogen Hardening of. By J. E. Hurst.....	47-48
Copper Industry in 1937, The. By H. J. Miller, M.Sc.	49-52
Castings and Forgings, Defects in Aluminium. By George Mann ..	65-68
Cast Iron, Modern Views of. By A. L. Norbury, D.Sc.....	69-72
Cold Working of Malleable Cast Iron, The Hot and. By J. V. Murray	85-87
Cartellisation in the World Aluminium Industry. Part II. By Robert J. Anderson, D.Sc.	88-90
Chromium-Manganese Steels as Heat-Resisting Steels. By J. H. G. Monypenny, F.Inst.P.....	93-96
Corrosion Resistance, Non-Ferrous Metals and Alloys for.....	101
Controlled Atmosphere, Gases for..	102
Cracking of Steel, Intercrystalline	107-108
Carbon and Alloy Steel, Large Steel Forgings in	108
Copper Development, An Oxygen Free	207-209
Controlling Controlled Atmospheres	223-224
Columbium, Recent Developments in Tantalum and	226
Cartellisation in the World Aluminium Industry. Part III. By Robert J. Anderson, D.Sc.	231-233
D	
Developments in Tube Manufacture ..	6
Die-Casting	29-30
Degreasing Solvent	30
Diesel Engines, Electro-magnetic Slip Couplings for use with Geared ..	32
Developments and Applications of Acid and Heat-Resisting Steels. By Dr. W. H. Hatfield, F.R.S.	53-55
Developments in Structural Steels, Modern. By J. A. Jones, M.Sc., F.Inst.P.	57-59
Defects in Aluminium Castings and Forgings. By George Mann ..	65-68

	Page
Drives in the Steel Industry, Electric	79-81
Development, Aluminium, Its Discovery and	117
Die-castings, Aluminium Bronze Gravity, By Arthur Street ..	185-186
Development, An Oxygen Free ..	207-209
Developments in Tantalum and Columbium, Recent	226
Deep Drawing and Pressing Problems, By J. D. Jevons, Ph.D., A.I.C.	235-236
E	
Elevated Temperatures, Mechanical Properties of Copper Tin Alloys at ..	21-22
Electro-magnetic Slip Couplings for use with Geared Diesel Engines ..	32
Electric Drives in the Steel Industry ..	79-81
Electric Heating Equipment	92
Equipment, The Testing of Mine and Quarry	104
Efficiency, Improvement of Open-Hearth Furnace, By A. Smithson ..	111-115
Electric Furnaces for the Aluminium and Light Metal Industries, Modern, By G. C. Castle ..	191-192
Engineering Products, Planned Publicity for	192
Exposure, The Protection of Aluminium-Base Alloys Against Outside Atmospheric, By E. Armstrong	219-222
F	
Foundry, Research and the	5
Furnaces, Modern Heat-Treatment ..	35-38
Furnace, Refining Steel in the High-Frequency, By Victor Stobie, M.I.E.E.	41-44
Forgings, Defects in Aluminium Castings and, By George Mann ..	65-68
Ferrous Materials and the Liability to Breakdown Service, The Relation between the Mechanical Properties of, By L. W. Schuster, M.A.	81-82
Forgings in Carbon and Alloy Steel, Large Steel	108
Furnace Efficiency, The Improvement of Open-Hearth, By A. Smithson	111-115
Forms of Aluminium and Its Alloys, Market, By William Ashcroft ..	175-176
Furnaces for the Aluminium and Light Metal Industries, Modern, By G. C. Castle	191-192
Films on Aluminium and Its Alloys, The Use of Oxide, By Dr. E. G. West	197-199
Fuels of To-day and To-morrow ..	222
G	
Geared Diesel Engines, Electro-magnetic Slip Couplings for use with	32
Gases for Controlled Atmospheres ..	102
Gasification of Coal, Underground ..	106
Gravity Die-castings, Aluminium Bronze, By Arthur Street ..	185-186
German Light Metal Airplane Construction, Riveting Methods and Rivet Equipment Used in ..	199-200

	Page
Heat-Resisting Steels, Chromium Manganese Steels as. By J. H. G. Monypenny, F.Inst.P.	7-12
High Duty Bronzes. By F. Hudson	13-16
Aluminium RR. 77	22
Heat-Treatment Furnaces, Modern	35-38
High-Frequency Furnace, Refining Steel in the. By Victor Stobie, M.I.E.E.	41-44
Hardening of Cast Iron, The Nitro- gen. By J. E. Hurst	47-48
Heat-Resisting Steels, Develop- ments and Applications of Acid- and. By Dr. W. H. Hatfield, F.R.S.	53-55
High Duty Brasses and Bronzes Available to the Engineer—Their Properties and Applications. By F. Hudson	61-64
Hundred Years of Steel, One.	77
Hot and Cold Working of Malleable Cast Iron, The. By John V. Murray	85-87
Heating Equipment, Electric	92
Heat-Resisting Steels, Chromium Manganese Steels as. By J. H. G. Monypenny, F.Inst.P.	93-96
Hardening by Inductive Heat, Surface	186
High Temperatures, Strength of Nickel Chromium Alloys at.	218
High Speed Strip Rolling. By C. E. Davies, M.I.Mech.E.	227-228
High Steam Pressures and Tempera- tures, Steels and their Utilisation for. By R. W. Bailey, D.Sc.	237-238

I

Industrial Map of the U.S.S.R., A
New. By a Special Correspondent
19-20

Industry, Cartellisation in the
World Aluminium. By Robert J.
Anderson, D.Sc. 45-47

Iron, The Nitrogen Hardening of
Cast. By J. E. Hurst 47-48

Iron, Modern Views of Cast. By
A. L. Norbury, D.Sc. 69-72

Iron, The Hot and Cold Working of
Malleable Cast. By J. V. Murray
85-87

Industry, Cartellisation in the
World Aluminium. Part II. By
Robert J. Anderson, D.Sc. 88-90

Industry, Progress in the Nickel. 97-101

Inter crystalline Cracking of steel
107-108

Improvement of Open-Hearth Fur-
nace Efficiency. By A. Smithson
111-115

Inductive Heat, Surface Hardening
by 186

Institute of Metals, The. 187-190

Industries, Modern Electric Fur-
naces for the Aluminium and
Light Metal. By G. C. Castle. 191-192

Industry, Re-Armament and 211

Inspection of Steel, The Metallurgi-
cal. By J. S. G. Primrose. 225-226

K	
" K " Monel Metal	234

L	
Lubrication, Metal Sprayed Surfaces in Relation to.....	31
Liability to Breakdown Service, The Relation between the Mechanical Properties of Ferrous Materials and the. By L. W. Schuster, M.A.	81-82
Locomotive Tyres, Turning. By L. Sanderson	103-4
Large Steel Forgings in Carbon and Alloy Steel	108
Lubrication, Steel Mill. By H. N. Bassett, A.I.Mech.E.	123-124

	Page
Leipzig Fair	180
Light Metal Industries, Modern Electric Furnaces for the Aluminium and. By G. C. Castle	191-192
Light Alloy Extrusions and Their Use in Aircraft, Manufacture of High Strength. Part II. By R. Wordsdale	193-196
Light Metal Airplane Construction, Riveting Methods and Rivet Equipment Used in German ..	199-200
Lithium, an Alloying Element and De-Oxidising Agent. By Stephen Coleman	228

M	
Machinery Manufacture, Rolling Mill	1-4
Molybdenum in Tool Steels. By W. F. Chubb	17-18
Map of the U.S.S.R., A New Industrial. By a Special Correspondent	19-20

Mechanical Properties of Copper-Tin Alloys at Elevated Temperatures	21-22
Metal-Sprayed Surfaces in Relation to Lubrication	31
Mill, New Roughing	32
Modern Heat-Treatment Furnaces	35-37
Metal Progress	39
Modern Developments in Structural Steels. By J. A. Jones, M.Sc.F. Inst.P.	57-59
Modern Views of Cast Iron. By A. C. Norbury, D.Sc.	69-72
Mechanical Properties of Ferrous Materials and the Liability to Breakdown Service, The Relation between the. By L. W. Schuster, M.A.	81-82
Metals Outlook, Non-Ferrous	84
Malleable Cast Iron, The Hot and Cold Working of. By John V. Murray	85-87
Manganese Steels as Heat-Resisting Steels, Chromium. By J. H. G. Moneypenny, F.Inst.P.	93-96
Metals and Alloys for Corrosion Resistance, Non-Ferrous	100
Mine and Quarry Equipment, the Testing of	104
Marketing Beryllium and Its Ores	116
Metals in 1937, Platinum	118
Magnesium Alloys, Recent Progress in the Application of. By D. B. Winter, A.F.R.Ae.S.	119-121
Mechanical Properties of Ropewire in Temperatures Ranging from 20° C. to 50° C.	122
Mill Lubrication, Steel. By H. N. Bassett, A.I.Mech.E., M.I.P.T.	123-124

Market Forms of Aluminium and Its Alloys. By Wm. Ashcroft.	175-176
Mills, Artificial Resin Bearings in Rolling	176
Moulds, Water-Cooled Non-Ferrous. By Dr. Karl Scherzer	177-178
Modern Electric Furnaces for the Aluminium and Light Metal Industries. By G. C. Castle.	191-192
Manufacture of High-Strength Light Alloy Extrusions and Their use in Aircraft. Part II. By R. Worsdale	193-196
Metal Airplane Construction, Riveting Methods and Rivet Equipment Used in German Light	199-200
Mild Steel Sections, Strength Properties of Rolled. By G. Welter and M. S. Wolagiewicz	213-217
Metallurgical Inspection of St. el. The. By J. S. G. Primrose.	225-226

N

New Industrial Map of the U.S.S.R.
By A Special Correspondent ..19-20

New Roughing Mill 32

Nitrogen Hardening of Cast Iron,
The. By J. E. Hurst47-48

	Page
Non-Ferrous Metals Outlook	84
Nickel Industry, Progress in the 97-101	
Non-Ferrous Metals and Alloys for Corrosion Resistance	101
Non-Ferrous Moulds, Water-Cooled, By Karl Scherzer	177-178
Non-Destruction Testing	203-204
Nickel-Chromium Alloys at High Temperatures, Strength of	218

O

One Hundred Years of Steel.....	77
Open Hearth Furnace Efficiency, Improvement of. By A. Smithson	111-115
Oxygen-Free Copper Development, An.....	207-209

P	
Progress, Metal	39
Progress in the Nickel Industry ..	97-101
Platinum Metals in 1937	118
Progress in the Application of Magnesium Alloys. By D. B. Winter, A.F.R.Ae.S.	119-121
Properties of Rope Wire in Temperatures Ranging from 20° C. to 50° C., Mechanical.....	122
Planned Publicity for Engineering Products	192

Q

Quarry Equipment, The Testing of
Mine and 104

R	
Rolling Mill Machinery Manufacture	1-4
Research in the Foundry	5
Resistance Welding Progress	12
Roughing Mill, New	32
Refining Steel in the High-Frequency Furnace. By Victor Stobie, M.I.E.E.....	41-44
Relation Between the Mechanical Properties of Ferrous Materials and the Liability to Breakdown Service, The. By L. W. Schuster, M.A.	81-82
Recent Progress in the Application of Magnesium Alloys. By D. B. Winter, A.F.R.Ae.S.	119-121
Ropewire in Temperatures Ranging from 20° C. to 50° C., Mechanical Properties of.....	122
Resin Bearings in Rolling Mills, Artificial	176
Riveting Methods and Rivet Equipment used in German Light Metal Airplane Construction.....	199-200
Rearmament and Industry	211
Rolled Mild Steel Sections, Strength Properties of. By G. Welter and M. S. Wolagiewicz.....	213-217
Recent Developments in Tantalum and Columbium	226
Rolling, High-Speed Strip. By C. E. Davies, M.I.Mech.E.	227-228

S	
Steels, Chromium-Manganese Steels as Heat Resisting. By J. H. G. Monypenny, F.Inst.P.	7-12
Steels, Molybdenum in Tool. By W. F. Chubb	17-18
Solvent Degreasing	30
Surfaces in Relation to Lubrication, Metal-Sprayed	31
Slip Couplings for use with Gearing Diesel Engines, Electro-magnetic	32
Steel in the High Frequency Furnace, Refining. By Victor Stobie, M.I.E.E.	41-44
Steels, Developments and Applications Acid and Heat-Resisting. By Dr. W. H. Hatfield, F.R.S.,	53-55
Structural Steels, Modern Developments in. By J. A. Jones, M.Sc., F.Inst.P.	57-59

	Page
Steels and the Engineer	72
Steel, One Hundred Years of	77
Steel Industry, Electric Drives in the	79-81
Steels, Chromium-Manganese Steels as Heat-Resisting. By J. H. G. Monypenny, F.Inst.P.	93-96
